Personal Statement

I understand that reaching my goal of playing Division I college soccer depends on my own commitment to growth. I consistently train outside my team environment, focus on improving specific areas of my game, seek and apply coach feedback, and pursue opportunities to compete at the highest levels available. These habits have shaped my development and continue to push me toward my full potential as a player.

As my resume shows, I never pass up opportunities to train and compete at elite levels, including ECNL, GA, ODP, USLW, US YNT Talent ID Centers, high school, and MLS Next boys training. I work relentlessly on my fitness and technical ability and take pride in being highly coachable. I value my education and remain committed to my academics, but my greatest motivation is my passion to take my soccer as far as possible. I am seeking a college program that will challenge me, support my growth, and foster meaningful, lifelong relationships.
